Getting Things DONE!

Here are just a few of the projects I've helped deliver.

Veterans Death Certificate Legislation

Sometimes the VA won't sign a Vet's death certificate. I've worked on fixing this for 7 years. When it passes in DC, it will fix this problem for all veterans in the USA.

Winning!!!

$1M Alum Treatment for Centerville Lake

Solved a blue-green algae problem by getting a $980K grant and saved Centerville taxpayers 95% of the cost.

Centerville Lake boat launch improvement

COOL

Last Spring the ice destroyed the launch. I was able to get it fixed in a couple weeks.

Generators for Linwood Fire Dept and Linwood Town Hall

It took 3 years, but I was persistent and found grants to help get this done. Huge wins for safety.

Broadband Expansion in Columbus and Linwood

I steered hundreds of thousands of grant dollars towards needed broadband in these communities.

Road Improvements

I have steered tens of millions of dollars to my district for road projects

Here are some ... 35E & Co J Full Interchange, Hodgson Road, Potomac Street, Lovell Road, Lake Drive, County Rd J & Lexington, Sunset Ave, North Rd (coming).

Roundabouts added to help move traffic and improve safety:

- Co J/Ash St & Centerville Road
- Sunset Ave & Main Street
- Hodgson Road & Co J
- Birch Street (2 by the school)

Missing Link Trail in Circle Pines

WOW!

Received state dollars to complete the archaeological studies and plans. This year, I'm lobbying the state to get it done.

NICE!

Chomonix Golf Course

My predecessor tried to close it; I kept it open and it is now improved and profitable.

Transparency

The County didn't have open mic at board meetings until I arrived and I helped get it added.

YES!

Centerville Rd Pedestrian Crossing

Worked with Tom Wilharber and the current city council to increase safety on Centerville Road.

Hwy 65 Reconstruction

I lobbied in DC to get Federal funding of $40M to fill the funding gap.

Fencing around Anoka Juvenile Detention Center

Even back when I was Mayor residents wanted this and I finally got it done as Commissioner ... HUGE added safety for the neighborhood!

I'm able to get things done because I know what I am doing. Experience creates results.
